EDUCATION

George Brown College

Advanced College Diploma in Computer Programming Analysis

Toronto, ON

Sep. 2021 – Apr 2024

EXPERIENCE

Mobile App Developer

September 2023 – April 2024

Metawebworks

Toronto, ON

- * Developed a cross-platform mobile application in React Native to allow users track phone calls made by customers
- * Contributed with coworkers to design the application using Figma
- * Collaborated with coworkers during sprint planning phase
- * Presented the application to a group of students and teachers

IT Technician/Web Developer

May. 2020 – Present

Mac Repair Man

Kitchener, ON

- * Repaired and diagnosed Apple computers and laptops
- * Handled spare parts inventory
- * Helped update and recreate the company's website using HTML, CSS, JavaScript

Sales Associate and Phone Repair Technician

April 2023 – August 2023

Activation Services Inc.

Oakville, ON

- * Sold wireless products and plans, providing clear and compelling descriptions to customers
- * Helped customer needs with respect to the purchase of wireless products, billing inquiries, and equipment/technical challenges
- * Repaired phone devices for customers

PROJECTS

F1 23 Results App | React, Node.js, MongoDB, Express, TailwindCSS

April 2024 – April 2024

- * Spearheaded the development of F1 23 Stats, a web application tailored for Formula 1 enthusiasts to track and analyze race data from the 2023 season
- * Implemented real-time data updates to ensure users receive the most current lap times and stats, enhancing the user engagement and data accuracy
- * Developed secure user authentication processes using JWT, enabling safe sign-up and login functionalities
- * Engineered a responsive and interactive interface using React.js and Tailwind CSS, ensuring compatibility across different devices and screen sizes

Employee Management App | Angular, GraphQL, TailwindCSS, MongoDB

March 2024 – April 2024

- * Developed an Angular-based Employee Management System to facilitate efficient handling and operations of employee data
- * Implemented GraphQL for optimized data fetching, enhancing the system's performance and scalability
- * Designed and integrated user authentication features using JWT for secure login and session management
- * Programmed dynamic, responsive user interfaces adaptable to various screen sizes, improving accessibility and user experience
