Eager Computer Science graduate aiming to leverage expertise in software development and mobile technologies within a dynamic, innovation-driven tech environment. Committed to driving technological advancements and efficiency. Keen to foster growth through collaborative development and innovative solutions.

EXPERIENCE

COMP3074, Toronto— *Mobile Developer*

September 2023 - PRESENT

- Built user-friendly interfaces with seamless navigation
- Designed and coded applications using Android Studio and React Native
- Deployed and tested applications

COMP2139, Toronto— *Web Developer*

January 2023 - April 2023

- Developed web applications using ASP.NET with a user-friendly interface and specification-compliant UI design.
- Implemented robust input validation for data integrity and user error prevention.
- Engineered exception handling to ensure applications are reliable and smooth.

PROJECTS

Study Tracker — *JavaFX Application*

- Developed a desktop application using JavaFX and Gradle.
- Records study sessions.

OvertimeCalc — *Android Application*

- Designed "OvertimeCalc," an app for payroll and tax calculations.
- Integrated tax deduction feature to display net pay and overtime.

EDUCATION

George Brown College, Toronto — *Attending*

Computer Programming and Analysis T177   September 2021 - April 2024

Honors: Dean's List (2023)

SKILLS

- Java
- Spring
- HTML
- CSS
- JavaScript
- C#
- React
- Docker
- MySQL
- Git
